

# The Mathers Recovery Drug Screening Policies Agreement

Throughout the duration of your participation in our Buprenorphine Treatment Program you will be required to provide urine drug screen samples at each of your monthly appointments. The routine screening schedule we have outlined on the following page and the lab services we order are based on a number of factors:

- ✎ To ensure patient safety and treatment compliance
- ✎ State and Federal laws requiring drug testing before administration of certain medications
- ✎ Insurance company requirements for approval of your medication

Please keep in mind that any of the following circumstances will result in additional testing and their associated costs:

- ✎ **Missed Appointments**
- ✎ **Loss Of Medication**
- ✎ **Early Refill Requests**
- ✎ **Positive For Any Non-Disclosed Illicit Substances**
- ✎ **UDS Results Showing Inconsistent Use of Buprenorphine**
- ✎ **Obtaining Medication From Another Provider**

In addition, failure to be able to provide a urine sample may result in us requesting an Oral Fluid sample which is a more costly testing method. This service will be billed by the lab and costs approximately \$1,370 (prior to possible insurance reimbursement).

**Refusal to provide a specimen for testing will result in discharge from the program.**

I understand and agree to the terms outlined in the Mathers Clinic Drug Screen Testing Schedule/Billing Policies.
